

PRODUCT DEVELOPMENT CHEMIST

THE COMPANY

The multi-award winning company, founded in 2014 has seen rapid growth over the last 2 years across the UK and Internationally.

We are a small team of designers, scientists and commercial employees based on the south coasts in Hove, developing, designing and supporting leading dermatologists, plastic surgeons and healthcare professionals who work in aesthetic medicine to launch and grow their own brand anti-ageing skincare products. Our clients are high profile international entrepreneurs.

The company has launched more than 150 international brands all of whom have seen rapid growth since they went to market.

We currently offer a range of 18 clinically proven products with multiple new products coming to market in the future.

We are in the process of transitioning to our own manufacturing capability and are looking for a Product Development Chemist to take a role in the next stage of our development.

We are a living wage organisation with an inclusive and openminded culture.

THE PERSON

Are you a free-thinking Cosmetic Scientist?
Are you looking to work in an entrepreneurial environment?

You will be ambitious and driven with an analytical and creative mindset, you will have the freedom to grow and develop personally and professionally, free to express opinion and bring your ideas to fruition.
